

Alicia Hammersmith

President, Global Freight Services

Alicia Hammersmith is President of Global Freight Services at Wabtec where she leads a \$2.8B global organization with 2,200 dedicated and talent employees who are responsible for 24K locomotive upgrades, and modernizations programs in 23 countries.

She is a seasoned executive with over 30 years of experience in manufacturing operations within Aviation, Transportation and Oil and Gas. A process-driven change agent, Alicia has deep expertise in business transformation, M&A, system implementation, and operational excellence.

Alicia spent more than three years as the Group Vice President of Operations for Transit at Wabtec and in this role was responsible for driving a number of simplification and restructuring activities that laid the foundation for improved efficiency and profitability.

Previously, she was Vice President of Global Materials for GE Aviation where she aligned commercial and supply chain operations through sales inventory and operations planning processes to improve cash flow delivery and was responsible for \$4.5B of global inventory and execution of \$31B of sales.

Alicia has a degree in engineering from the University of Pittsburgh and a master's in business from Xavier University in Cincinnati, Ohio.
